quality & convenience

South Bay Surgery Center provides quality and convenient outpatient services as a cost effective alternative to traditional inpatient hospital care. Our respected surgeons are supported by a skilled operative team of anesthesiologists, surgical nurses, technicians, and postoperative care nurses. We combine state-of-the-art surgical equipment and technology with compassionate, individualized care. Our surgical team ensures all patients a comfortable and professional experience. We believe that South Bay Surgery Center will be the answer to your outpatient surgical needs.

a premier ambulatory
surgery center serving
Santa Clara County

dedicated to providing
the highest quality
of patient care

financial arrangements

South Bay Surgery Center is contracted with some insurance companies. We may or may not be contracted with your insurance company. You may be contacted by an employee of MedBridge Development, our billing and financial services agency, who will verify your insurance and give you an estimate of your financial responsibility. A co-pay or pre-payment may be due on or before your date of surgery. To pay with your credit card, in advance, visit our website or call (888) 282-7472. Preliminary information may also be obtained by our staff from your surgeon's office at the time your surgery is scheduled.

Please note that the South Bay Surgery Center fee **does not** include fees for your surgeon, consulting physician, anesthesiologist or laboratory work. In addition to a bill for the facility, you may receive a bill for your surgeon and anesthesia services.

preparing for surgery

Once your surgery has been scheduled, you will be notified of the date and time. A nurse from the Center will then contact you with a pre-operative questionnaire that will help us provide the most thorough and appropriate care.

Please read this information carefully and follow the instructions.

- Do not eat or drink anything after midnight unless your physician/anesthesiologist states otherwise.
- You may bathe/shower and brush your teeth without swallowing water the morning of surgery.
- If you wear glasses or contact lenses, bring a case to protect them.
- If there is a possibility that you may be pregnant, please notify your surgeon.
- A responsible adult must accompany you home from the Center.
- Leave all jewelry and valuables at home **except** for necessary co-payment obligations (i.e. credit card, check, etc).
- Bring current photo identification (drivers license, ID card, passport, etc) and insurance card.

If you experience any changes in your health between the times of your last office visit and your scheduled surgery, please notify your physician. Examples of changes in health include a cold, cough or fever.

day of surgery

Upon arrival at the Center, your registration will be completed and you will meet your surgical team to prepare for surgery. Any additional questions that you may have will be answered at that time.

after surgery

After your surgery is completed, you will be in the postoperative care unit, where the average time spent is one to two hours, depending on your surgery and the type of anesthesia given. When recovery is sufficient, the anesthesiologist will release you.

Your surgeon will provide you with specific post-operative care instructions after your surgery. In addition, please follow the general instructions below.

- Follow your physician's instructions regarding activities, diet, rest, and medications.
- For your protection, avoid making important decisions or signing important documents for at least 24 hours following your procedure.
- Plan to have a responsible adult drive you home and stay with you for 24 hours after your surgery.
- Do not drink alcoholic beverages for 24 hours following your surgery.

A Center staff member will call the following business day to check on your progress and answer any questions.
